

Motorola PageWriter[®] 2000X

Send Messages Right From Your Pager!

SkyTel[®], the pioneer of two-way paging, introduces SkyWriter[®] - the unique paging service that lets you send messages or internet e-mail right from your pager. The *Motorola PageWriter[™] 2000X* features a full keyboard and graphic display that allows you to communicate wirelessly with other one- and two-way pagers and internet e-mail addresses, yet is small enough to comfortably wear on your belt or in your pocket. You compose exactly the message you want and transmit it – from the street, your car, anywhere within the SkyTel Advanced Messaging Network coverage area. Senders can get your reply quickly and easily by modem-equipped computer, internet e-mail, the SkyTel web site or on their SkyTel pager. Start reducing long-distance and cellular phone expenses today! In addition, you will receive free of charge TrueSync by Starfish. TrueSync empowers users to synchronize tasks, notes, addresses and calendar events with other PC related software such as MS Outlook and with popular devices such as Palm Pilots.

The Motorola PageWriter[™] 2000X pager gives you a powerful, flexible communications package and PIM device.

SkyWriter Service Benefits

- ▶ Send messages to other SkyTel pagers or internet e-mail addresses.
- ▶ Receive and respond to e-mail at your pager's unique internet e-mail address.
- ▶ Respond to pages on the go – no need to find a phone.
- ▶ Messages are stored when you're out of range and automatically delivered when you return.
- ▶ Listen to messages anytime, anywhere with Page Recall and a touch-tone phone.
- ▶ Receive free news updates twice daily.
- ▶ Personalize your greeting so callers hear your voice when they call the SkyTel system.

Unit Features and Operations

- ▶ Full QWERTY lighted keyboard for easy message entry.
- ▶ High resolution graphics display.
- ▶ Features that can easily be customized including various alerts and folders for special messages.
- ▶ Rechargeable NiMH battery; one week battery life; one hour recharge.
- ▶ Users now have access to a full MB of RAM for address book entries, messages and applications as opposed to 256k on the previous PageWriter 2000.
- ▶ Address book to keep up with important contact information.
- ▶ Improved Flex[™] Operating System which makes the unit more user friendly and offers such new features as **Quiet Time** along with the ability to upgrade to other features as they become available.
- ▶ Faster processor than it's predecessor.
- ▶ Improved IR DA port.
- ▶ Docking station for easy connectivity with your PC through the pager's IR port.
