Beyond Theory to Action Keynotes

Distinctive Innovation™ - The Way to Great Performance

Innovation, collaboration and technology are revolutionizing business. Learn how to unleash the power of emerging technology for your organization. Stimulate hundreds of great ideas through an interactive and dynamic approach to change. Drawing on knowledge from Doug's latest book, **Medical Informatics 20/20**, this program highlights trends and tactics using electronic technologies such as EHRs and healthy gaming as well as emerging technologies such as DNA science and nano devices for better health today and tomorrow.

ConsumerMD™ - Energize Your Customers with Online Communities & Healthy Gaming

Discover how to connect with customers through online social networks and communities, and the latest electronic healthy games such as 'Wii Fit', 'Glucoboy' and 'Re-Mission'. Explore the implications of 'Consumer Directed' and 'Patient Centered' healthcare trends as you gain insights from innovative cases studies. Learn how "Communities of Care" can be built with Web 2.0 and Healthy Gaming tools to expand customer relationships and achieve your goals.

Health 2020 - The Future of Medicine, Today

Rapid and exponential changes in technology and process change science are enabling a quality revolution in health. Uncover strategies and tactics for executives and doctors to leapfrog the competition via e-Commerce, e-Care and Health@Anywhere products and services. Move beyond Theory to Action through invaluable knowledge gained from Doug's eHealthcare book/CD-ROM and recent innovation projects with the world's largest health organizations.

Experiences and Additional Keynotes

The Gaming4Health Anywhere - An Unique Interactive Exhibit and Event

Digital Doctoring Today, DNA and Nano Doctoring Tomorrow

Health@Anywhere - From Personal Health Records to Healthy Gaming and Nurse Avatars
